

# Microloc

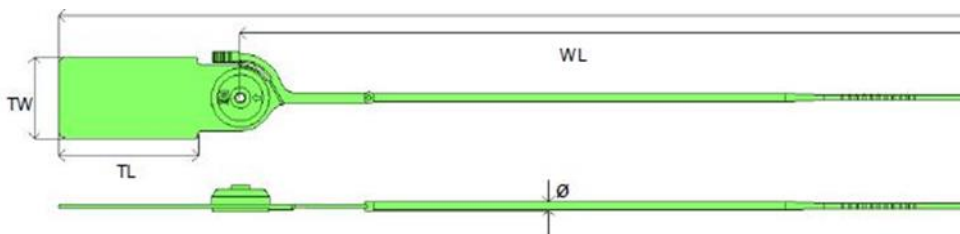

## Pull Tight Security Seal

Issue: Jan 2018

**Non-Tear-Off Seal – Available in 150, 200, 210, 250 & 300mm Lengths.**

**Tear-Off Seal – Available in 210, 250 & 300mm lengths**

The Talisman Microloc seal is a versatile pull tight seal manufactured from polypropylene, with a metal locking insert, which provides a positive locking action.

150 and 200mm lengths do not have a tear-off function, and have two tag length options.

The tear-off feature allows for manual removal without the need for a cutting tool, which saves cost and improves health and safety.

A smooth strap means the seal is user friendly for operators applying the seal.

## Technical Data
