## Tamper Evident Security Tape

Issue: June 2018

### Plain Security Tape

### Perforated Strips

Talisman Assetloc tamper evident tape is designed to provide covert security for cardboard boxes and various other surfaces of different materials. Once applied, the security tape blends in to other packaging products used, therefore not giving away that the goods it seals are of high value.

Once it is removed, the adhesive layer will transfer onto the surface the tape has been applied to, leaving a void message that clearly indicates any unauthorised tampering. This transfer also means that the tape is single use, further enhancing security.

Our Assetloc security tape is fully customisable, with a variety of colours, sizes, lengths and text. We can print both customised void messages and visible surface text to suit your needs, such as company names or sequential numbering. Our tamper evident tape is also available with perforations every 154.2mm.

Assetloc tamper evident tape is available in 50.8mm wide by 50m long rolls, and is shipped in cartons of 36 rolls.

## Technical Data

### Applications

Security sealing cardboard boxes with or without shrink wrap, high value containers.

### Material

Tamper evident laminate with formulated hot melt adhesive.

### Packaging

Supplied on 50.8 mm x 50m rolls  
Cartons of 36 rolls  
Custom sizes are available
